Definitions

NIP

I am reporting you for the consideration of the question of prosecuting you for the offence of ... [offence], [NOW Caution]

Definition of a Road (S.192 of Road Traffic Act 1988)

"...in relation to England and Wales, means any highway and any other road to which the public has access, and includes bridges over which a road passes".

This includes private roads, private car parks and driveways used by the public (such as supermarket car parks, campsites etc.) where the laws of the road still apply.

Definition of Driving

Whilst there's no legal definition, 'driving' is generally held to mean 'being in control of both the direction and the propulsion of the vehicle'.

Note: the driver is still 'driving' even when stationary, with the handbrake on, in a queue of traffic, such as waiting at red ATS

Tyres: Whether to issue a VDRS or a TOR
Defects in blue may be dealt with by way of a Vehicle Defect Rectification Scheme notice

Passenger Cars / Light Goods Vehicles

3pts & £100 VDRS or TOR	RC86027	Tyre grooves less than 1.6mm for cars / light vans up to 3500kg
	RC86028	Tyre grooves less than 1.6mm for goods vehicles up to 3500kg

A minimum tread depth of 1.6mm, across the central 75% and around the full circumference of the tyre. Each shoulder may be devoid of tread but must not expose ply or cord. Applies to:

- passenger carrying vehicle (Car, Motor Caravan, etc) with no more than 8 passenger seats (excluding driver)
- Goods vehicle or dual purpose vehicle not exceeding 3500kg

Mopeds < 50cc

3pts & £100	RC86393	Tread pattern not clearly visible
------------------------	-------------------------	-----------------------------------

Motorcycle

3pts & £100 TOR/VDRS	RC86556	Use motorcycle with tyre tread less than 1.0mm
------------------------------------	-------------------------	--

Minibuses / Goods Vehicles

3pts & £100 TOR (not VDRS)	RC86549	Tyre grooves less than 1.6mm for cars / light vans up to 3500kg
	RC86549	Tyre grooves less than 1.6mm for goods vehicles up to 3500kg

For passenger carrying vehicles with more than 8 passenger seats, excluding the driver, or a goods vehicle exceeding 3,500kg maximum gross weight, a 1.0mm tread depth applies to the grooves, but the 75% width rule does not apply to the central 75%. It could, for example, be 75% to one side or the other provided that the original tread pattern is visible on 25%.

Compare the tyre to other tyres of the same brand on the vehicle in order to see the original tread pattern.

Mixing Tyres (Radial and Cross-ply)

3pts & £100 TOR/VDRS	RC86024	Use motor vehicle mixing tyres on same axle
3pts & £100 TOR/VDRS	RC86026	Use motor vehicle with mixed tyres on front and rear axles

Damaged Tyres

3pts & £100 VDRS or TOR	RC86403	Tyre—ply or cord exposed
	RC86400	Tyre—over/under inflated
	RC86401	Tyre—cut in fabric (over 25mm or 10% of width of tyre, whichever is greater, deep enough to reach ply or cord)
	RC86402	Tyre—lump, bulge or tear
	RC86994	Use a wheeled motor vehicle or trailer with a tyre unsuitable for the use to which vehicle being put

Tyre Tread Requirements for Passenger Cars, etc.

Note the Batch No., normally indicated by four digits such as: 4217 indicating Week 42 of 2017.

Sidewalls must be free from cuts or bulges that will affect the strength or integrity of the tyre when under load.

Bulges bulge outwards. A slight inversion, where the rubber is joined, is normal and acceptable.

Consider heavily marking the outside of an illegal tyre with yellow road chalk or paint in order to make it conspicuous.
